# Undershoot

Hxakip

The image shows the word 'Hxakip' in a black serif font. A horizontal orange line is drawn across the middle of the letters. Below this line, there are three orange oval shapes of varying sizes, representing the undershoot of the letters 'a', 'k', and 'p'. The 'a' and 'k' have small ovals, while the 'p' has a larger one. The 'H' and 'x' do not have ovals below them.

# Stem

Hixalkip

The image shows the word 'Hixalkip' in a black, stylized, serif font. The letters are 'H', 'i', 'x', 'a', 'l', 'k', 'i', 'p'. The vertical stems of the letters 'i', 'l', 'k', and 'p' are highlighted in orange. The 'i' has a dot above it. The 'x' is formed by two intersecting diagonal strokes. The 'a' is a simple cursive-style letter. The 'l' is a simple vertical stroke. The 'k' has a vertical stem and a diagonal stroke. The 'p' has a vertical stem and a loop at the bottom.

# Serif

H x a k i p

The image displays the word "H x a k i p" in a black serif typeface. Each letter is accompanied by a light orange circular highlight that focuses on a specific serif feature. For the uppercase 'H', the highlight is on the top horizontal bar. The lowercase 'x' has highlights on both its top and bottom horizontal bars. The lowercase 'a' has a highlight on its top vertical stem. The lowercase 'k' has a highlight on its top vertical stem. The lowercase 'i' has a highlight on its bottom vertical stem, with its dot shown as a separate black circle. The lowercase 'p' has a highlight on its bottom vertical stem.

# Descender serif

Hxakip

A diagram illustrating the descender serif feature. It shows a lowercase letter 'p' in a serif font. The letter has a vertical stem that extends below the baseline. At the end of this stem is a horizontal bar, which is the descender serif. This bar is highlighted with a light orange circle, and the stem itself is highlighted with a darker orange circle.

# Tooth

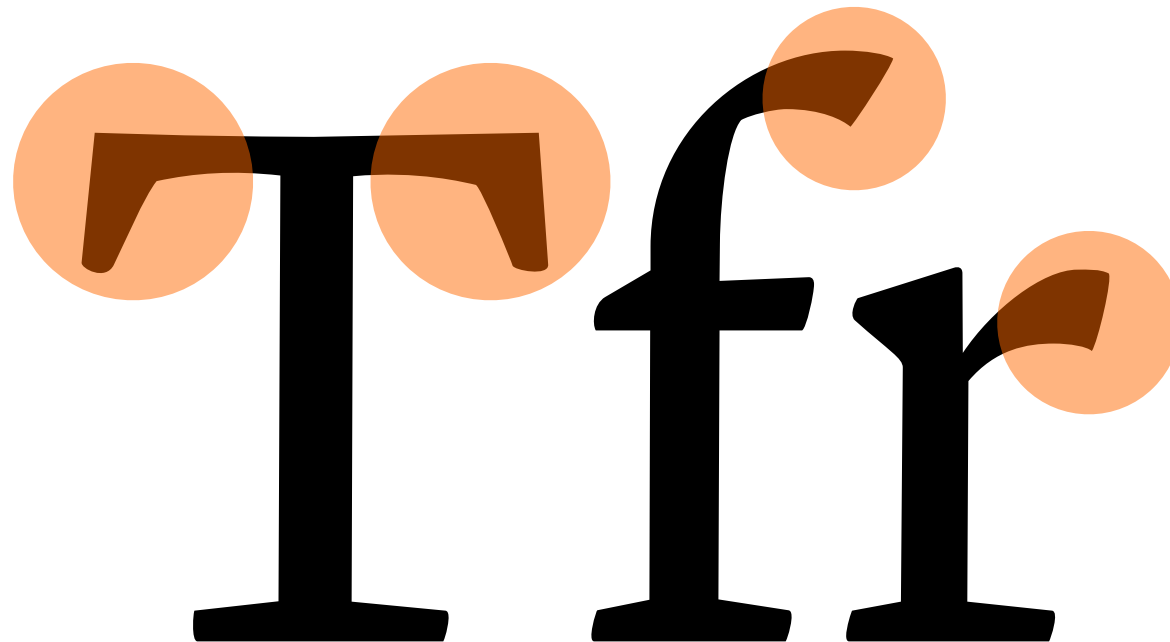

Gcc

The image shows the letters 'G', 'C', and 'c' in a black, serif font. Each letter has a small, stylized tooth pointing towards it. The tooth is composed of a light orange circle with a dark brown, triangular shape inside, representing the tooth's tip. The teeth are positioned as if they are about to bite into the letters.
